

I am writing regarding the proposed rule to give LPFM priority over FM translator service. If this rule passes the station I listen to, K-LOVE could be forced off the air. This would leave me, my family, and thousands of other listeners without the family-friendly programming we enjoy and depend on each day. K-LOVE provides positive and encouraging program that impacts communities all over America. It is the only station my family chooses to listen to and it is safe for children too. Please preserve this important service that thousands of Americans depend on and value.
Thank you, Kristina Stansbury
